NEOXA FINANCE

About Company

Neoxa Finance is a trailblazing digital asset management firm founded in 2018 by visionaries Andy Niemand and Thierry Bouyra. Building on Neoxa's successful gaming blockchain, we expand into construction and real estate, offering a diversified approach to cryptocurrency investment.

Operating as a DeFi yield harvesting protocol, Neoxa Finance provides high-performance and sustainable APY (Annual Percentage Yield) trading systems across a wide range of digital assets, including cryptocurrencies, blockchain gaming, memes, and digital real estate. Our platform enables investors to enhance their returns through strategic, efficient investment opportunities.

With over 6 years of combined expertise in cryptocurrency and digital asset management, our founders bring unparalleled insight and innovation. Neoxa Finance simplifies crypto investments, helping you grow your portfolio without needing upfront capital.

We are committed to transforming cryptocurrency interaction with smart, efficient investment opportunities. Our global presence—offices in Cyprus, France, and headquarters in the United States—ensures top-notch services and strategic insights for clients worldwide.

Join Neoxa Finance and experience precise, creative, and forward-thinking investment management.

Vision & Mission

Neoxa Virtual Card

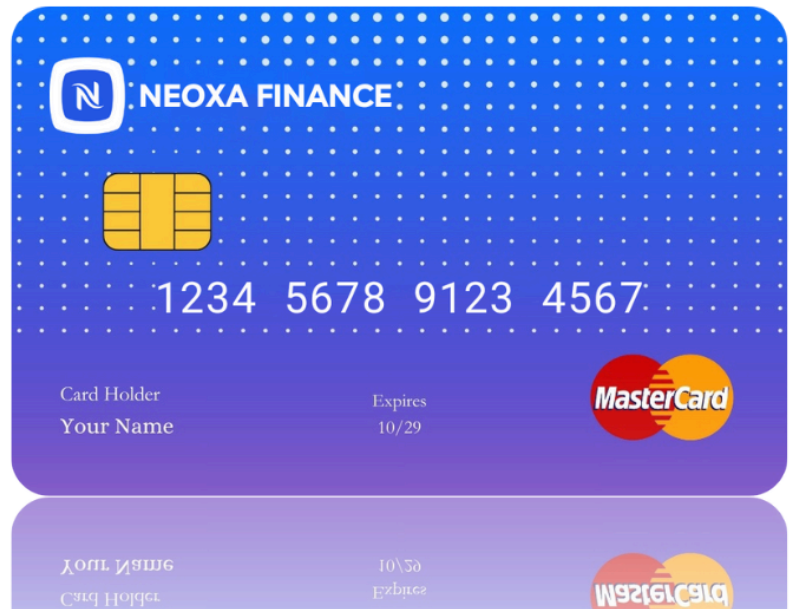

After years of development and planning, we are excited to introduce our revolutionary Neoxa Virtual Card system for the Neoxa Finance trading protocol.

This groundbreaking virtual card incorporates hybrid security analytics, as promised by our developers. Designed to propel hybrid account owners into a secure digital environment, it offers several technological advancements including personal server security, digital loan accessibility, and seamless financial interoperability.

The Neoxa Virtual Card ensures flexibility, simplified payments, speed, and robust security. The Neoxa Finance financial protocol guarantees long-term stability and functionality, mandating that all Neoxa Finance hybrid compounding portfolios integrate with the Virtual Card system for optimal efficiency and server performance.

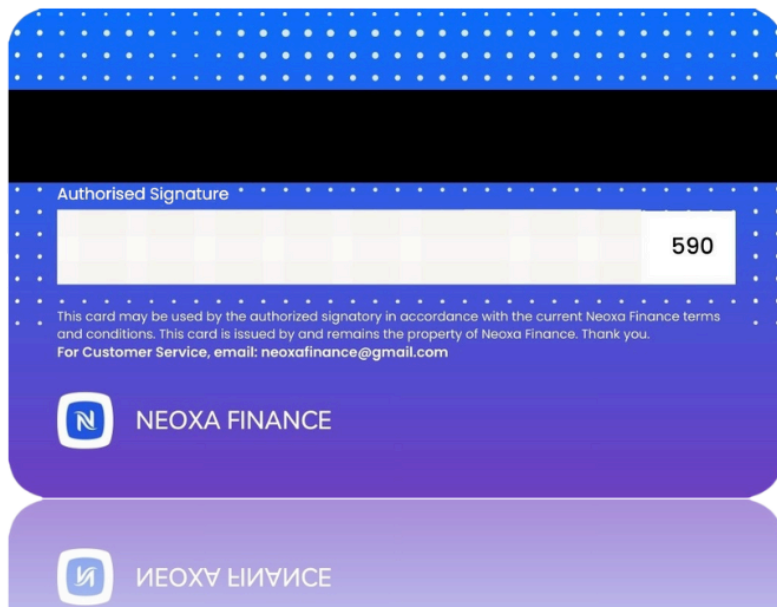

Neoxa Virtual Card

Why the Virtual Card is Essential for Hybrid Compounding Accounts

- **Security:** With substantial financial data transfers across our hybrid servers daily, any security breach could have catastrophic consequences. The Zero Trust Security Model implemented in our virtual card provides user-level security clearance for every transaction, ensuring protocol integrity.
- **Data Analysis:** User data is processed per trade cycle for insurance purposes. The vast trade data in hybrid accounts is tracked using a Transaction Management System (TMS) under Mastercard and PayPal protocols, the primary hosts of our virtual card system.
- **Speed:** Large-scale financial transactions on hybrid protocols can cause server lag during deposits and withdrawals. Our virtual card's private key system ensures decentralized command confirmations, expediting data processing and transaction speeds.

Neoxa Virtual Card

Additional Benefits of the Neoxa Virtual Card

- **Digital Asset Loans:** The Neoxa Finance DeFi protocol provides virtual card users and hybrid accounts with access to cryptocurrency loans without the need for collateral
- **Daily Profit Withdrawals:** Activate your cash flow to withdraw your trading profits every 24 hours.
- **Online Purchases:** Make online purchases with the virtual card key on any digital finance platform supported by PayPal and MasterCard protocols. This virtual card serves as a financial safeguard for capital flows for all connected accounts, helping the company control capital flows and stay afloat against insolvency traps.

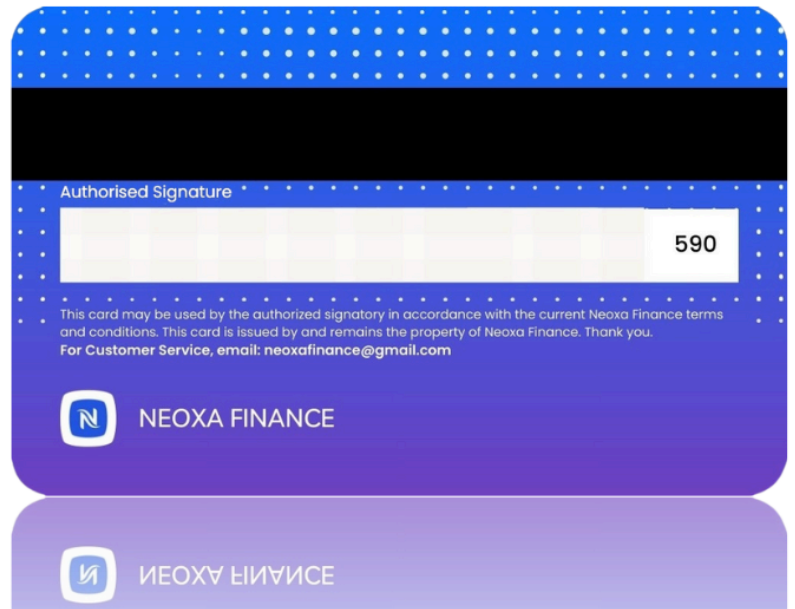

Neoxa Virtual Card

Each authorized member or account connected to each virtual card can make personalized transactions using the card number to generate a private key for each transaction they want to make.

Hybrid accounts will be considered first for any future developments and opportunities with Neoxa Finance.

Cost

Each Neoxa Virtual Card costs \$15,500, covering virtual installation, PayPal and Mastercard server authorization, and insurance clearance for loan assessments.

Milestone

2020

In 2020, Neoxa Finance significantly broadened its international footprint by entering the European and U.S. markets.

This strategic move allowed us to tap into new opportunities and serve a wider client base, positioning us as a global player in the digital asset management space. Our expansion efforts included establishing local offices and building a robust network of industry contacts to enhance our service offerings and market presence.

2021

The year 2021 saw Neoxa Finance forge a pivotal strategic alliance with leading blockchain technology providers.

This partnership was instrumental in advancing our technological capabilities and integrating cutting-edge solutions into our investment platform. By leveraging the expertise of our partners, we enhanced our service offerings, enabling us to deliver more innovative and effective investment strategies to our clients.

2022

Neoxa Finance was honored in 2022 with the 'Best Digital Asset Management Firm' award by Industry Magazine. This accolade reflects our commitment to excellence and innovation in the digital asset management sector.

The recognition highlights our successful implementation of advanced investment solutions and our leadership in driving the evolution of cryptocurrency investments. This award underscores our dedication to providing top-tier services and our continued growth and impact in the industry.
